The committee tasked with reviewing and coordinating the conference submissions consists of the following members:

Martin Adam
(University of Applied Sciences Kufstein, Austria)

Rogerio Atem de Carvalho
(Instituto Federal Fluminense, Brasil)

Dagmar Auer
(Johannes Kepler University Linz, Austria)

Irene Barba Rodriguez
(University of Seville, Spain)

Josef Bernhart
(EURAC Bozen / Bolzano, Italy)

Goetz Botterweck
(Lero - The Irish Software Engineering Research Centre, Ireland)

Ruth Breu
(University of Innsbruck, Austria)

Jörg Courant
(HTW Berlin, Germany)

Jörg Dörr
(Fraunhofer IESE, Germany)

Dirk Draheim
(University of Innsbruck, Austria)

Kerstin Fink
(University of Applied Sciences Salzburg, Austria)

Kai Fischbach
(Universität Bamberg, Germany)

Hans H. Hinterhuber
(University of Innsbruck, Austria)

Sami Jantunen
(Lappeenranta University of Technology, Finland)

Josef Küng
(Johannes Kepler University Linz, Austria)

Asmamaw Mengistie
(Sholla Computing, USA)

David Meyer
(University of Applied Sciences Technikum Wien, Austria)

Wolfgang Ortner
(Joanneum University of Applied Sciences, Austria)

Kurt Promberger
(University of Innsbruck, Austria)

Friedrich Roithmayr
(Johannes Kepler University Linz, Austria)

Matthias Schumann
(University of Göttingen, Germany)

Stéphane S. Somé
(University of Ottawa, Canada)

Alfred Taudes
(WU Vienna University of Economics and Business, Austria)

Victoria Torres Bosch
(Polytechnic University of Valencia, Spain)

**11.11.2013
Vienna University of Economics and Business**

Dear Researcher and Conferee,

on behalf of the organization committee, we would like to warmly welcome you to the ERP Future 2013 - Research conference in Vienna.

In combination with the ERP Future - Research conference on November 11, the ERP Future - Business event with more than 20 ERP solution providers and 50 end-user companies takes place on November 12 2013.

We have set up this platform for the scientific community and interested companies to present and discuss latest business oriented, as well as technological topics, covering Enterprise Resource Planning (ERP) systems, Business Intelligence (BI) systems Business Process Management (BPM) systems and information systems.

Special thanks go to Alfred Taudes and Alexander Prosser and the valuable team of the Vienna University of Economics and Business that actively supported the University of Innsbruck in organizing and realizing this special event.

We are looking forward to a joint and successful event that supports an interdisciplinary exchange of knowledge and leads to new ideas as well as personal contacts.

Enjoy and actively enrich the ERP Future 2013 - Research conference!

Thank you,

Michael Felderer
Felix Piazolo
