DE	302008 034943	<p>Gegenstand der Markenmeldung ist eine Bewegungsmarke, namentlich die Darstellung einer Folge von 6 bewegten Bildern. Die Marke zeigt die graphische Darstellung eines Balkendiagramms, einer Art Treppe, mit darüberlaufendem Männchen. In Bild (Phase) 1 steht das Männchen auf der ersten Säule und läuft nach rechts in Richtung zweiter Säule, wobei sich die Säulen dabei orange verfärben und dies jeweils 0,5 Sekunden dauert. Nach 2 Sekunden erreicht das Männchen die dritte Säule und färbt gleichzeitig die beiden ersten Säulen weiss, die drei rechten Säulen werden orange (Bild 2). Das Männchen setzt seinen Lauf nach 3 Sekunden fort, verharrt auf jeder Säule 0,5 Sekunden, um nach 4 Sekunden die letzte Säule, den fünften Balken am rechten Rand zu erreichen. Danach läuft das Männchen auf dem Boden weiter und verlässt die Bildfläche nach 1 Sekunde (Bild 3). Nach 1 Sekunde tritt das Männchen von rechts kommend wieder auf die Bildfläche und dreht sich gleichzeitig zum Betrachter, erscheint etwas größer und hat ein grün pochendes Kreuz anstelle des Herzens (Bild 4). Aus der Sicht des Betrachters hebt das Männchen den linken Arm in einer fließenden Bewegung, wobei synchron dazu die drei Säulen daneben 0,5 Sekunden anwachsen und dies grün gekennzeichnet ist (Bild 5). In Bild 6 bleibt das Männchen mit erhobenem Arm stehen. Das grüne Kreuz pocht weiter.</p>  <p>The image contains six small diagrams labeled 'Phase 1' through 'Phase 6', arranged in two rows of three. Each diagram shows a bar chart with five bars of increasing height from left to right. A small figure of a man is positioned on the bars, moving from left to right across the phases. In Phase 1, the man is on the first bar. In Phase 2, he is on the second bar, and the first two bars are white. In Phase 3, he is on the third bar, and the first three bars are white. In Phase 4, he is on the fourth bar, and the first four bars are white. In Phase 5, he is on the fifth bar, and the first five bars are white. In Phase 6, he is on the ground to the right of the bars, and the first six bars are white. A green cross is visible on the man's chest in the later phases.</p>	35 38 42	Helmerich, Jens,	R	2008

DE	302008 0450223	<p>Gegenstand der Markenmeldung ist eine Bewegungs-marke, namentlich die Darstellung einer Folge von bewegten Bildern mit einer Laufdauer von 4 Sekunden. Die Marke zeigt als sich bewegende graphische Darstellung, wie aus allen Teilen des Bildes zahlreiche gleich große Würfel in roter Farbe auf einen Punkt in der rechten Bildmitte zuschweben. Die Würfel bilden, nachdem sie aufeinander getroffen sind, einen größeren Würfel, der im Verhältnis der Kantenlängen den einzelnen kleineren Würfeln entspricht. Ebenso entspricht die Farbe des größeren Würfels derjenigen der kleineren Würfel. Der Würfel ist in perspektivischer Aufsicht von links vorne oben zu sehen. Zugleich mit der Bildung des größeren Würfels erscheint links vom Würfel in gleicher Höhe mit ihm der Schriftzug "RMS. Der Audiovermarkter", ebenso wie auf der dem Betrachter zugewandten Vorderseite des Würfels ein Quadrat mit weißen Linien, an dessen oberen Rand von unten anstoßend die Großbuchstaben "RMS", ebenfalls in weiß, eingeblendet werden. Sodann erscheint, wie von unsichtbarer Hand geschrieben, auf der Vorderseite des Würfels unterhalb der Buchstaben RMS ein etwa V-förmiger Haken, etwas über den unteren Rand des Quadrats aus weißen Linien nach unten ragend. Bei der Marke handelt es sich um den Bewegungsablauf von sechs Bildern (Sequenz 01 bis 06 gemäß graphischer Wiedergabe), wobei diese in aufsteigender Reihenfolge ohne dazwischen liegende Pause gezeigt werden. Die einzelnen Darstellungen werden zu folgenden Zeitpunkten im Ablauf der Bewegungsmarke gezeigt: Bild1: Anfangsbild, Bild 2: nach 1/3 Sekunde, Bild 3: nach 2/3 Sekunde, Bild 4: nach 1 Sekunde, Bild 5: nach 1 1/2 Sekunden, Bild 6: von 1 1/2 bis zum Ablauf der 4. Sekunde</p>	35 38 41 42 45	RMS Radio Marketing Service GmbH & Co. KG,	R	2008

DE	302009 0342881	 <p>Es handelt sich um eine Bewegungsmarke, die darstellt, wie in immer gleicher und wiederkehrender Form als visuelles Element in Werbespots der Anmelderin das komplette für den Zuschauer erkennbare Bild „betaut“ wird. Das wiederkehrende Element besteht dabei darin, dass immer dann, wenn in einem Werbespot ein Schauspieler ein Getränk der Anmelderin zum Trinken ansetzt, der gesamte Bildschirm für den Zuschauer mit Tautropfen bedeckt wird, um den damit verbundenen Erfrischungseffekt zu versinnbildlichen. Dieses Element der Frische kommt in allen Werbematerialien zentral vor (z.B.</p>	16 32 35	Brauerei C. & A. Veltins GmbH & Co.	R	2010

		„irgendwann erfrischt es jeden – Frisches Veltins“). Um den Wiedererkennungswert zu gewährleisten, ist dieser Betaungseffekt in allen Werbespots, sowohl was die Verteilung der Tautropfen, als auch den zeitlichen Ablauf angeht, genau gleich ausgelegt. Die Markenmeldung bezieht sich ausdrücklich nicht auf die Betaung von im Bild erkennbaren Objekten, wie z.B. Bierflaschen oder –gläsern.				
DE	302012 0553923	 <p>Die Marke ist eine Bewegungsmarke, die aus einer silbernen Scheibe besteht, die entlang ihres äußeren Rands einen schwarzen Ring enthält. Ein weißes Licht, das übergeht in eine violette Spur, rotiert im Uhrzeigersinn entlang des Rings. Innerhalb des Rings befindet sich ein skizziertes Mikrofon mit einem schwarzen Sockel und einem violetten Körper. Der schwarze Kasten um den äußeren Kreis wird nicht als Merkmal der Marke beansprucht und soll nur den Hintergrund zeigen / The mark consists of a <b>motion mark</b> that consists of a silver disc containing a black ring around its outer edges. A white light that fades to a purple trail moves in a clockwise rotation around the ring. Inside the ring is the outline of a microphone, with a black base and a purple body that has a black shadowing effect to the lower right. The black box around the ring is not claimed as a feature of the mark, and is intended to show background only.</p>	9 28 35 38 43 45	Apple Inc	R	2013

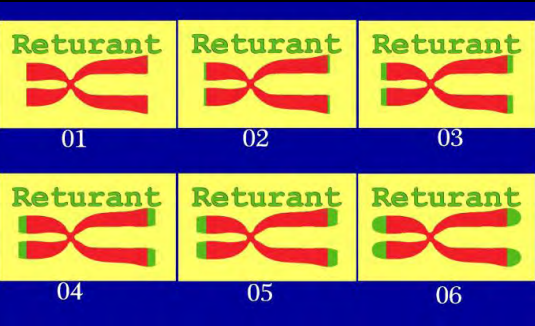

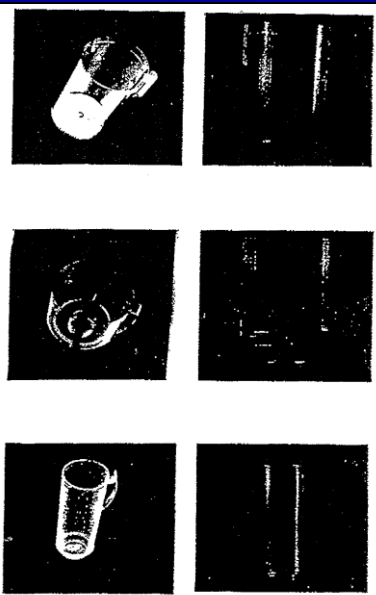

DE	302012 0558925	 <p>Die Marke besteht aus dem Worтеlement „ad-artists“ und einem grafischen Element, einer grünen Kreisfläche. Nur das grafische Element ist beweglich. Die Bewegung ergibt sich daraus, dass die Kreisfläche, immer in gleicher Höhe bleibend, sukzessiv über die Zeichen des Worтеlements wandert: In der Ausgangsstellung befindet sie sich über dem „a“ von „artists“, wandert von dort bis zum letzten Buchstaben von „artists“, von diesem aus nach vorne bis zum „a“ von „ad“ und wieder zurück zur Ausgangsstellung. Den genauen Bewegungsablauf zeigt die grafische Wiedergabe der Bewegungsmarke in jedem Einzelschritt: Feld 01 zeigt die Ausgangsstellung, Feld 02 die zweite Position der Kreisfläche, Feld 03 die dritte Position der Kreisfläche usw.; in Feld 19 ist sie wieder in die Ausgangsstellung zurückgekehrt. Für den Weg von der Ausgangsstellung bis zu dieser zurück benötigt die Kreisfläche 2,80 Sekunden. Über jedem Zeichen verharret sie gleichlang. Bevor sie den Weg erneut aufnimmt, verbleibt sie 2,00 Sekunden in der Ausgangsstellung. Befindet sich die Kreisfläche über einem Zeichen, erscheint es in der Farbe Weiß. Nachdem sie es verlassen hat, wechselt die Farbe des Zeichens wieder zu Schwarz. Die Buchstaben und der Bindestrich sind, solange sich die grüne Kreisfläche nicht über ihnen befindet, in Schwarz gesetzt. Farb-Code der Buchstaben dabei ist: RGB: 26, 23, 27. Befindet</p>	9 28 35 38 41 42	mantel + schölzel	R	2013

EM	5083671	 <p>1 2 3 4 5</p> <p>Besteht aus einem sich bewegenden Bild des leuchtenden Vollmondsymbols. In Bild 1 ist das Mondsymbold unbeweglich, darunter befindet sich der Satz "It's good to be home" in einer geraden Linie. Nach einer halben Sekunde beginnt das Symbol, wie in Bild 2 dargestellt, sich wie beim Einatmen auszudehnen und der Satz "It's good to be home" beginnt, sich leicht nach oben zu biegen. In der nächsten halben Sekunde dehnt sich das Symbol weiter aus, wird größer und die Biegung des Satzes "It's good to be home" wird deutlicher sichtbar. Dies dauert noch eine weitere halbe Sekunde an. In Bild 4 beginnt das Mondsymbold, wieder auf seine normale Größe zu schrumpfen, der Satz "It's good to be home" wird zu einem Lächeln um den Mond herum. Innerhalb der nächsten halben Sekunde fällt das Mondsymbold wieder vollständig in sich zusammen und erreicht seine ursprüngliche Größe und Form in Bild 5. Der Satz "It's good to be home" bildet nun ein Lächeln um den Mond. Der gesamte Ablauf vollzieht sich innerhalb von zwei Sekunden The trade mark</p>	3 5 11	Reckit Benckiser	E R	2007
----	---------	--	--------	------------------	-----	------

		consists of a moving image of the glowing full moon icon. In frame 1 the moon icon is stationary with the "It's good to be home" wording positioned in a straight line under the moon. Within 0.5 of a second, and shown in frame 2, the icon begins to expand as if inhaling a large breath and the "It's good to be home" wording begins to curve slightly upwards. In the next 0.5 of a second, the icon continues expanding, thus getting larger and the curvature of the "It's good to be home" wording becomes more apparent. This continues for another 0.5 of a second. The moon icon begins to deflate in frame 4 with the "It's good to be home" wording beginning to form a smile around the moon. The moon icon fully deflates within the next 0.5 of a second to return to its original size and shape in frame 5. The "It's good to be home" wording now forms a full smile around the moon. The whole movement is completed in 2 seconds

Danach wird die rotierende gelbe und blaue Lichterscheinung kleiner und erscheint als ein einziges helles Licht, dass sich anschließend wieder in Blau und Gelb über den Bildschirm ergießt. Während die farbige Lichterscheinung auf dem Bildschirm kleiner wird, erscheint im Hintergrund die Wortgruppe SONY make.believe und wird immer besser und deutlicher sichtbar, wobei das Licht</p>	9 28 35 37 38 41 42 45	Sony Corporation	R	2010

		<p>gleichzeitig zu einem einzigen Spotlight schrumpft und einen Punkt zwischen den Wörtern "make" und "believe" bildet. Die angefügten Zahlen 1-10 geben die Reihenfolge der Einzelbilder an, die diese Marke darstellen, und sind nicht Bestandteil der Marke. The trade mark is a moving trade mark comprising the following: Bright white light diffuses from the centre of the screen, with the whole screen then being covered by two coloured rotating lights, that are sparkling in blue and yellow. The yellow and blue rotating light burst decreases in size to appear as one bright light which then bursts across the screen again in blue and yellow. As the colour burst decreases in size on the screen, in the background the words SONY make.believe appear and become more visible and prominent as the light decreases into a single spotlight to form the full stop between the words "make" and "believe". The numbers 1-10 attached indicate the order of the frames whereby this trade mark is represented and are not part of the trade mark.</p>

EM	8582595	 <p>This is a motion mark in colour. The nature of the motion is that of a trailing ribbon with a liquid-like appearance ("ribbon"). The ribbon flows around and ultimately into a sphere design ("sphere"). The duration of the motion is approximately 6 seconds. The stills in the sequence are spaced approximately 0.3 seconds apart. The stills are evenly spaced from the beginning to end of sequence.</p>	9 38 41	Sony Ericsson Mobile Mobile Communications	R	2011

		<p>The 1st still is the upper left still. The last still (20th) is the middle still in the bottom row. The stills follow a progression from left to right within each row, before moving down to the next row. The precise sequence of the stills is as follows: In the 1st still, the ribbon enters the frame in the upper edge of the frame and flows down the right edge of the frame, before flowing upward in the 2nd to 6th stills. During that phase of motion (in the 4th still) the end of the ribbon is shown, producing the effect of a trailing ribbon. In the 6th to 17th stills, the ribbon flows counter clockwise around the frame. From the 9th still onwards, the sphere immediately moves into the centre of the frame. The interior of the sphere is the same colour as the ribbon. The ribbon flows around the sphere. In the 14th still, the ribbon enters the sphere, as if being pulled inside. In the 15th to 17th stills, the ribbon disappears inside the sphere. In the 19th and 20th stills, the sphere moves toward the viewer, gaining in size and ending the motion.</p> <p>Bewegte Marke in Farbe, die Bewegung ist die eines losen Bandes von schimmerndem Aussehen ("Band"), das Band flattert und nimmt schließlich eine kugelförmige Gestalt an ("Kugel"), die Dauer der Bewegung beträgt etwa 6 Sekunden, die Standbilder in der Sequenz liegen etwa 0,3 Sekunden auseinander, sie haben vom Beginn bis zum Ende der Sequenz den gleichen Abstand, das erste stehende Bild ist das oben links, das letzte (zwanzigste) ist das mittlere in der untersten Reihe, die Standbilder verlaufen in jeder Reihe von links nach rechts, bevor zur nächsten Reihe übergegangen wird, die genaue Sequenz der Standbilder ist folgende: Im ersten Standbild tritt das Band an der Oberkante des Rahmens in den Rahmen ein und flattert am rechten Bildrahmen abwärts, ehe es sich in den Standbildern 2 bis 6 wieder nach oben bewegt, während dieser Bewegungsphase (im vierten Standbild) sieht man das Ende des Bandes, so dass der Effekt eines nachgeführten Bandes entsteht, in den Standbildern 6 bis</p>

EM	8840894	 <p>Dargestellt sind zur Beschreibung der Bewegungsmarke 9 Sequenzen, wobei die fortlaufende Nummerierung von oben nach unten die verschiedenen Stadien des Bewegungsablaufs wiedergeben. Gezeigt wird der Ausschnitt eines Bildschirms, in welchem sich in der rechten oberen Ecke das als Bewegungsmarke beantragte Logo hineindreht. Die Bewegungsmarke ist dabei eine Kombination aus Bewegungs- und Positionsmarke. Die Bewegungsmarke besteht im ersten Stadium (Bild 01 und 02) aus einem an den Ecken abgerundeten Rechteck mit umlaufendem hellen Rand, welches sich um die halbe eigene leicht schräg gestellte Achse drehend in die oberen rechten Ecke auf dem Bildschirm hineindreht und</p>	9 38 41	Görg Rechtsanwälte	R	2010

		<p>schließlich als Rechteck mit der größeren Seite parallel zur oberen Seite des Bildschirms in der oberen rechten Ecke auf dem Bildschirm verbleibt. Zu diesem Zeitpunkt ist von der linken oberen Seite des Bildschirms kommend ein in heller Farbe gestalteter Pfeil in Bewegung zu dem Rechteck zu sehen (Bild 02), der sich dem Rechteck nähert und schließlich das Rechteck an der linken Seite bis zu einem Drittel überdeckt (Bild 03). Sodann bewegt sich der Pfeil wieder in die entgegen gesetzte Richtung nach links, bis der Pfeil den äußeren Rand des Rechtecks erreicht hat (Bild 04). Etwa gleichzeitig erscheint in der Mitte des Rechtecks ein kleines Quadrat in heller Farbe, welches stetig größer wird, bis es etwa ein Drittel der Fläche des Rechtecks einnimmt. Während dieser Wachstumsphase bewegt sich der Pfeil wieder nach rechts bis er schließlich das Rechteck an der linken Seite bis zu einem Drittel überdeckt und an den Rand des Quadrates stößt (Bild 04 und 05). Nach Erreichen dieser Größe verkleinert sich das Quadrat wieder stetig, bis es etwa ein Viertel der Fläche des Rechtecks einnimmt. Der Pfeil bleibt an seiner Position (Bild 06). Sodann dreht sich das Rechteck wieder um die eigene leicht schräg gestellte Achse bis die Rückseite des Rechtecks erscheint. Der Pfeil verschwindet hinter der sich wendrehenden vormaligen Vorderseite des Rechtecks. Gleichzeitig erscheinen die nebeneinander angeordneten 2 Buchstaben PP in heller Farbe in etwa der Größe des Rechtecks, die - stetig etwas kleiner werdend - schließlich innerhalb des Logos und den Innenbereich nahezu vollständig einnehmend erscheinen und die neue Vorderseite des Rechtecks bilden (Bild 07 und 08). Das Logo verbleibt sodann ohne weitere Bewegung in dieser Position (Bild 09). / The trademark consists of 9 sequences describing the motion trademark, and the sequential number from top to bottom represents the different stages of the motion sequence. A section of a display screen is shown, containing in its upper right corner, the proposed logo for the motion trademark. The</p>				
--	--	---	--	--	--	--

		<p>motion trademark is therefore a combination of a motion and positional trademark. In the first stage (image 01 and image 02), the motion trademark consists of a rectangle with rounded edges with a light coloured border, revolving 180 degrees around its own slightly titled axis and attached to the upper right corner of the screen, which eventually becomes a rectangle in the upper right corner of the screen with the longer sides parallel to the upper side of the screen. At this juncture a light-coloured arrow appears from the upper left side of the screen pointing towards the rectangle (image 02), and moves closer, eventually covering up to a third of the left side of the rectangle (image 03). The arrow then moves to the left in the opposite direction, until it reaches the outer edge of the rectangle (image 04). At the same time, a small, light-coloured square appears in the centre of the rectangle, becoming progressively larger until it covers almost a third of the area of the rectangle. While the square is getting bigger, the arrow moves once more to the right until it eventually covers up to a third of the left side of the rectangle and touches the edge of the square (image 04 and 05). After reaching this size, the square gets progressively smaller until it covers about a quarter of the area of the rectangle. The arrow remains in its position (image 06). The rectangle then turns again on its own slightly tilted axis until the rear side of the rectangle appears. The arrow disappears behind the revolving former front side of the rectangle. At the same time the two light-coloured letters PP appear, roughly the size of the rectangle and arranged next to one another, and, becoming progressively smaller, eventually appear to almost completely cover the logo and the interior and form the new front side of the rectangle (image 07 and 08). The logo remains in this position and there is no further movement (image 09).</p>

EM	10084507	 <p data-bbox="472 638 1256 1364">Diese Marke besteht aus einer Bewegungsabfolge von Bildern in Farbe. Die Bewegung besteht darin, dass die agierende Figur einen grauen Schleier langsam über ihre Kleidung bis ganz über ihren Kopf hebt. Die Bewegung führt dazu, dass besagter grauer Schleier, ursprünglich Teil der Kleidung, vollständig abgezogen und entfernt werden kann. Die Dauer der Bewegung beträgt etwa zwei Sekunden. Die 14 Standbilder der Sequenz folgen in einem Abstand von etwa 0,14 Sekunden aufeinander. Das erste Standbild ist links oben dargestellt. Das letzte Standbild (Nr. 14) ist das letzte in der vierten Reihe. Die präzise Abfolge der Bilder lautet: in Standbild 1 ergreift die Figur den grauen Schleier an der Kleidung. In den Standbildern 2 bis 4 zieht die Figur den grauen Schleier von der Oberkleidung ab. In den Standbildern 5 bis 9 entfernt die Figur den grauen Schleier vom Oberkörper, nämlich von Kopf und Schultern. In den Standbildern 10 bis 14 wird die Bewegung vollendet und der graue Schleier vollständig entfernt. / This is a motion mark in colour. The nature of the motion is that of a main character slowly removing a grey veil from its clothing and passing it over its head to remove it completely. The nature of the motion perceived is that this grey veil, which had been a part of the initial clothing, can be peeled off and removed entirely. The duration of the movement is approximately 2 seconds. The 14 stills in the sequence are spaced approximately 0.14 seconds apart. The 1st</p>	3	The Procter & Gamble Co	R	2012
----	----------	--	---	-------------------------	---	------

		still is the upper left still. The last still (14th) is the second still on the 4th row. The precise sequence of the stills is as follows: in still 1 the main character catches the grey veil from its clothing. In stills 2 to 4, the main character peels the grey veil off from its upper clothing. In stills 5 to 9, the main character removes the grey veil from the upper part of its body, namely its head and shoulders. In stills 10 to 14, the main character finalizes this removal. At the end of the motion the grey veil has been completely removed.				
EM	10108322	 <p>Bewegungsmarke in Form einer animierten Bildsequenz, die eine unregelmäßige Blasenform, bestehend aus rosa konzentrischen Linien, in Kombination mit der unten rechts angeordneten</p>	9 35 38 41	ITV Studios Ltd	R	2011

		<p>Wortgruppe "ITV Studios" in Grau auf schwarzem Grund zeigt. Durch eine wogende Abfolge von Falten und Wellen kräuseln sich die Konturen der Blasenform in einem Bewegungsablauf wie bei wehendem Stoff, der von rechts unten durch einen Ventilator angeblasen wird. Der Fokus der Linien nimmt zu, wobei die konzentrische Blasenform insgesamt erhalten bleibt. Während die Kräuselbewegungen der konzentrischen Linien im Bewegungsverlauf zunehmend tiefere Falten und Wellen bilden, schlägt die Farbe der äußeren Linien allmählich von Rosa in Blau um, und die anfangs grau erscheinende Wortgruppe "ITV Studios" leuchtet zunehmend heller auf, bis sie am Ende weiß ist. Die konzentrischen Linien bewegen sich weiter in tieferen Falten und Wellen, und währenddessen breitet sich der blaue Farbton der äußeren Linien immer weiter nach innen aus, und die endgültige unregelmäßige Form aus bunten Linien flattert nach außen, wobei die Linien in der Mitte hellrosa sind, dann allmählich in Violett übergehen und am Außenrand schließlich hellblau sind. Die Gesamtlänge der animierten Bildsequenz beträgt 6 Sekunden /</p> <p>Movement mark. The trade mark is an animated sequence consisting of an irregular bubble shape composed of pink concentric lines in conjunction with the words "ITV Studios" in grey in the bottom right hand corner on a black background. The contours of the bubble shape ripple through an undulating series of folds and waves with a movement similar to the movement of fabric fanning from the bottom right. The focus of the lines increase whilst an overall concentric bubble shape is maintained. As the ripple movements of the concentric lines progressively form deeper folds and waves, during the course of the ripple movement, the outer lines gradually change colour from pink to blue and the wording "ITV Studios" progressively brightens from grey to white. The concentric lines continue to move in deeper folds and waves as the blue shading of the outer lines progresses inwards and as the final irregular shape of coloured lines fans outwards, with bright pink lines at the centre blending into purple lines and then bright blue lines at the outer edges. The total length of the animated sequence is 6 seconds</p>

		<p>circled sparkles move, in the opposite direction, from left to right, increasing in quantity as the movement moves forward.</p>				
EM	10393023	 <p>Besteht aus einer 19 Sekunden dauernden animierten Sequenz, bestehend aus achtzehn Dias, die in einem Zeitabstand von zirka einer Sekunde wechseln, diese Sequenz beginnt mit einem rechteckigen schwarzen Bildschirm, auf dem senkrechte Lichtstrahlen erscheinen, die in wechselnder Intensität und Farbe projiziert werden, diese Lichteffekte werden zunächst intensiver und danach wieder zunehmend schwächer, bevor sie völlig verschwinden, gleichzeitig erscheint allmählich die Bezeichnung "STUDIOCANAL" in Intervallen ("SS", "STU", "STUDIO", "STUDIOCANAL") von links nach rechts und im Hintergrund zunächst verschwommen und flüchtig, danach rollt sie durch flüchtige Spiegel- und Lichteffekte ab, bis sie vollständig im Vordergrund und in der Mitte</p>	9 16 25 35 38 41 42	Groupe canal +	R	2012

		<p>des Bildschirms angekommen ist, sie besteht aus weißen, in fetter Schrift gestalteten Großbuchstaben, die sich zunächst in einem schwarzen Kästchen und am Ende nur noch auf schwarzem Grund befinden. The trademark consists of an animated sequence of nineteen seconds composed of eighteen frames, which change in a period of time of approximately one second. This sequence begins with a rectangular screen in black on which appears vertical, projected beams of light of varying intensity and colour. These lighting effects appear in a progressive manner, then fade, then once again appear in a progressive manner before disappearing completely. Simultaneously, and progressively, the name "STUDIOCANAL" appears by degrees ("SS", "STU", "STUDIO", "STUDIOCANAL") from left to right and in the background, firstly blurred and hidden, then with shifting mirror and lighting effects it emerges and finally is placed integrally at the very front, and in the centre of the screen, in white, bold capital letters, in a black frame, then finally simply on a black background.</p>				
EM	10525046	 <p>The trademark is a sequence of images which runs in any given advertisement banner. In one corner of the advertisement banner, shown merely by way of example, the sign with "i" shown in the top, first image, image 1, is displayed first. The image sequence, as shown in image 1, image 2, image 3 and image 4, starts only when the user moves the mouse pointer over the sign with "i" without clicking on it, or when he clicks on it. In the process, the sign expands outwards from the corner of the banner in a short time,</p>	35 42	Adnologies GmbH	E	2014

		specifically in less than one second, into a large sign with a message, as shown in the fourth image. The large sign is smaller than the advertisement banner. The large sign, according to image 4, containing the message remains open until the user moves the mouse pointer away from the large sign again. In this case, the image sequence starts in the reverse order, i.e. image 4 - 3 - 2 - 1, until the sign with "i" is displayed in the corner of the banner again. The large sign in image 4 shows, for example, text which informs the user that he can obtain further information about the reasons for the selection of the advertising displayed in the banner if he clicks on the large sign with the mouse pointer. The inner edges of the sign with "i" are rounded and bordered by a light-coloured line. The outer edges of the sign with "i" are cut away and coincide with the edges of the advertising banner

EM	013738455	 <p data-bbox="472 1094 1245 1382">a motion mark in colour. The nature of the motion is that of two white contrail-like images, one above the other, which start out in separate areas of a blue/purple background; then they flow toward each other with the lower image becoming more ribbon-like, and then separate again with both images returning to a contrail-like appearance. The duration of the motion is approximately 3 seconds. The stills in the sequence are equally spaced approximately .15 seconds apart. The stills are spaced</p>	This is	9 14 28	Sony Mobile Communications	R	2015
----	-----------	---	---------	---------	----------------------------	---	------

	<p>consecutively from the beginning to the end of the sequence. The stills follow a progression from the top left (1st still) to the bottom right (20th still), moving from left to right across each row and then down to the next row. The specific dimensions of the background will vary depending on the specific device that is used with the mark. The precise sequence of the stills is as follows: In the 1st still, the two white contrails are separate and start near the middle of the frame, with one above the other. The upper contrail is shorter and straighter and touches the right side of the frame, while the lower contrail is longer and slighted bowed in the middle towards the upper contrail and touches the left side of the frame. In the 1st through 5th stills, the lower contrail gradually flows toward the upper contrail by bending increasingly in the middle to create a pronounced bow. In the 6th through 10th stills, the lower contrail continues to flow towards the upper contrail and becomes more arc-like, as both contrails increase in width and the lower right-hand portion of the lower contrail floats out of view. In the 11th through 15th stills, the contrails slowly move apart again as the shape of the lower contrail becomes more ribbon-like, with the thinnest portion of the ribbon on the left side of the frame and the thickest portion of the ribbon in the middle of the frame, and where the white colour gradually fades from brightest on the left side of the frame to lightest on the right side of the frame. In the 16th through 20th stills, the lower image decreases in width, moves further away from the upper contrail, and again becomes more contrail-like, ending the animation.</p>

EM	013738653	 <p data-bbox="468 1077 1256 1367">a motion mark in colour. The nature of the motion is that of an electric wave consisting of flowing elements of the colours yellow, orange, pink, red, blue, and green, which flow into the left side of a black background at different wavelengths; they peak in size and intensity in a confluence in the middle of the frame, and then flow out of the right side of the black background, with the colour fading out. The duration of the motion is approximately 3.75 seconds. The stills in the sequence are equally spaced approximately .2 seconds</p>	This is	9 14 28	Sony Mobile Communications	9	2015
----	-----------	---	---------	---------	----------------------------	---	------

	<p>apart. The stills are spaced consecutively from the beginning to the end of the sequence. The stills follow a progression from the top left (1st still) to the bottom right (20th still), moving from left to right across each row and then down to the next row. The specific dimensions of the background will vary depending on the specific device that is used with the mark. The precise sequence of the stills is as follows: In the 1st and 2nd stills, only a black background is shown. In the 3rd still, a small portion of a pink flowing element enters the frame from the left side of the frame, in the middle of the frame. In the 4th and 5th stills, more of the wave becomes visible, as yellow, orange, red, and blue flowing elements enter the frame from the left side of the frame, and all coloured flowing elements stretch toward the center of the frame. In the 6th through 9th stills, the colours in the electric wave become brighter and the flowing elements become thicker, as the wavelengths peak in size and activity and fill the middle of the frame, moving toward the right side of the frame. The pink flowing element appears in the bottom portion of the wave, the yellow and orange flowing elements appear in the middle of the electric wave and the red, blue and green flowing elements appear toward the upper portion of the wave. In the 10th through 12th stills, the coloured flowing elements start to exit the right side of the frame, in the middle of the frame, as the wave decreases in in size and brightness. In the 13th through 17th stills, the electric wave continues to fade in brightness and shrink in size until it is barely visible as a small, more linear cluster of colours situated in the middle of the right side of the frame, with orange and yellow most visible, as the wave exits. In the 18th through 20th stills, only a black background is visible, ending the animation.</p>				
--	--	--	--	--	--

EM	013805536	<p style="text-align: right;">This is a</p>  <p>motion mark in colour. The nature of the motion is that of an animated, undulating set of waves in shades of blue/purple. The wave set is shown from a cross-section perspective. An illuminated blue/purple background is shown above the wave set, and an unilluminated blue/purple foreground is shown below it. The duration of the motion is approximately 3 seconds. The stills in the sequence are equally spaced approximately 15 seconds apart. The stills are spaced consecutively from the beginning to the end of the sequence. The stills follow a progression from left (1st still) to right (5th still). The specific dimensions of the background will vary depending on the specific device that is used with the mark. In all stills, the middle of frame features a wave in shades of blue/purple; the top part of the frame is a blue/purple background that is illuminated, with the illumination appearing to come from behind the top of the wave; and the lower part of the frame is a blue/purple foreground that is unilluminated. Parts of each wave rise and fall at different rates, in shades of blue/purple, as the waves move from left to right. The precise sequence of the stills is as follows: In the 1st still, the overall wave appears at a crest. In the 2nd still, it appears at a trough. In the 3rd still, it appears at a crest. In the 4th still, it appears at a trough. In 5th still, it appears at a crest, ending the animation.</p>	9	Sony Mobile Communications	R	2015

		<p>and healthy flower appear dead or dying; whereas the flies surrounding the wilted flower appear alive. The final frame shows one of the flowers being alive, upright and healthy; whereas the other flower wilted and appears dead. The flies surrounding the alive, upright and healthy flower appear dead; whereas the flies surrounding the wilted flower appear alive.</p>				
<p>NZ</p>	<p>843284</p>	 <p>This mark consists of an animation, as shown in the representations attached to the application. The animation is displayed in rectangular frames, and opens with a blue background. In frames 2 to 9, segments of line appear, progressing out from a central point in the middle of the frame. The line segments are of unequal length, and move outwards from the centre of the frame in many directions. They appear to be continuously moving, and many of the line segments</p>	<p>9 16 35 36 38 39 41 42 45</p>	<p>Telecom IP Ltd</p>	<p>R</p>	<p>2013</p>

		<p>double back approximately over their first path when they reach their full length, crossing back through the centre point where the lines intersect. By frame 9, the size of the area covered by the lines has stabilised. From frames 9 to 30, the lines continue to cross back and forth across the central point, taking slightly different paths each time. Some of the lines' previous paths disappear as new ones are created, with the result that as the animation progresses, the line segments appear to be clustered around three basic axes, which bisect each other at the central point. The lines appear to be in continuous movement throughout the animation</p>				
NZ	846447	 <p>This mark consists</p>	9 38 42	Telecom IP Ltd	R	2013

		<p>of an animation, as shown in the representations attached to the application. The animation is displayed in rectangular frames, and opens with an entirely black background. Between frames 3 and frame 7, a line begins to appear, originating from the middle of the upper half of the screen, and progressing towards the upper right corner of the screen, where it appears to go off the edge of the screen. Between frames 8 and 14, the line re-enters the screen about halfway down the right hand side, and curves in and then out again towards the lower right hand corner of the screen, before curving again and traversing left in a flat curve, exiting the screen again on the left hand side briefly. From frames 15 to 20 the line re-enters slightly below its most recent exit point, crossing over its own path near the left hand side of the screen and travelling towards the centre of the screen. As the line travels, its path moves in a squiggly manner and its trail begins to disappear behind it. Frames 21 to 29 show the line reaching the centre of the screen, where it travels in approximate circles several times. During those frames the end of the line catches up with itself so that the entire length of line is involved in tracing several round shapes approximately over the top of each other. In frames 30 to 35 some of the circles appear to twist three-dimensionally on their axis, so that the line now resembles three groups of round shapes entwined together around the same nucleus. In frames 36 to 38 the circular shapes appear to twist further so that the three groups of circular shapes appear to be viewed side on, visible as flat lines. This gives the appearance of three groups of lines crossing each other at a central point. In frames 39 to 41 the shape shrinks and then disappears in frame 42, leaving a black screen</p>				
--	--	---	--	--	--	--

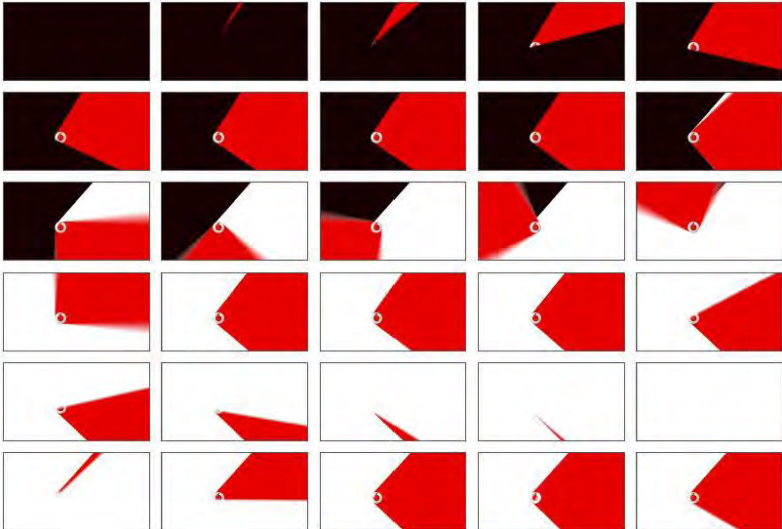

<p>NZ</p>	<p>846448</p>	 <p>This mark consists of an animation, as shown in the representations attached to the application. The animation is displayed in rectangular frames, and opens with an entirely black background. In frames 3 and frame 9, a blue line appears, originating from about the middle of the screen. The line moves upward and to the left, before curving down, to the right, curving around below its starting point and then sweeping in a broad curve up and around its starting point, and over far to the left of the frame. From frame 10 to 12, the line curves again towards the right, moving below its previous path in a flat curve until it reaches the midright side of the frame, where it</p>	<p>9 38 42</p>	<p>Telecom IP Ltd</p>	<p>R</p>	<p>2013</p>
-----------	---------------	---	----------------	-----------------------	----------	-------------

		<p>curves down in a tight bend and veers to the left once more. In frames 13 to 16 the line continues to curve left and upwards, crossing its previous path slightly to the right-hand side of the frame, and continuing up and left, then up and right, and curving around its starting point. In frames 17 to 23, the line traces several circular shapes around its original starting point. Meanwhile, its previous path begins to disappear behind it, until in frame 23 the line is only visible in the several circular shapes roughly occupying the same space in the centre of the screen. In frames 24 to 29 the circular shapes appear to twist three-dimensionally on their axis, so that the line now resembles three groups of round shapes entwined together around the same nucleus. In frames 30 and 31 the circular shapes appear to twist further so that the three groups of circular shapes appear to be viewed side on, visible as flat lines. This gives the appearance of three groups of lines crossing each other at a central point. In frames 30 and 31 the lines turn from blue to white.</p>				
--	--	--	--	--	--	--

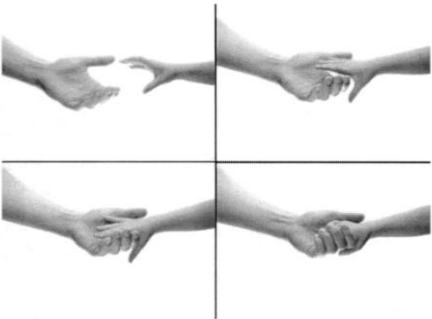

<p>NZ</p>	<p>988424</p>	 <p>The trade mark is an animation, as shown in the representations attached to the application. It is composed of 50 sequences (1 to 50) that lasts 10 seconds in total. The starting point is an orange triangle that multiplies to show an increasing number of orange and grey triangles and triangular arrow devices which start to overlap (frames 1 through to 15); the triangles/arrow devices then appear to gradually turn into a group of runners viewed from the side (frames 16 to 18), then from both the front and from the side (frames 19 to 37), then the runners appear to gradually become orange and grey triangles and triangular arrow devices (frames 38 to 47) and the number of triangles/arrow devices gradually decreases until finally there is a single orange</p>	<p>3 5 7 9 10 12 14 16 18 25</p>	<p>Valdimir Pte</p>	<p>E R</p>	<p>2014</p>

US	4058875	 <p>The mark is a <b>motion mark</b>. The moving image features a bouncing ball bouncing across a room. During the moving image sequence, the ball, which is at the back of the room, begins to bounce forward in a slow, animated arc-like motion, with a tail of balls of diminishing sizes trailing behind signifying an exaggerated bouncing movement, moving first to the left and then reversing direction to the right on the first bounce. The ball grows increasingly larger in circumference with each bounce as the bouncing movement propels it forward on the screen. The second bounce propels the ball directly forward, with the ball growing very large, almost filling the screen until it impacts with the screen, stopping the forward movement, causing the ball to bounce off the screen, propelling it backwards into a bounce that then propels the ball into a slightly right and forward motion. At this point in the sequence, the ball appears to be fixed in mid-air, with a tail of balls of diminishing sizes extending from the left of the ball towards the floor in an arc. The moving image sequence concludes with the ball spinning to the right, revealing the words "INTRU 3D" written across the ball. The duration of the moving image is approximately six seconds. The drawing represents five stills from the moving sequence, showing the appearance, direction and movement of each bounce.</p>	9 41	Intel Corp	R	2011
